

Product description

Water-based anti-wear additive for formulating aqueous metalworking fluids. Water-soluble and readily biodegradable product.

Typical chemical and physical properties

Chemical nature	Blend of surfactants, coupling agents and organic amides.	
Appearance	Liquid	
Solubility	Miscible	
Water		
Odour	Barely perceptible	
Density at 25°C	1,13 - 1,18	g/ml
pH at 23°C	5 - 8	
Viscosity at 25°C	<50	mPa·s

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and treat level

Markets	Industrial machinery Automotive industry
Applications	Metal working fluids (emulsions, water based systems, water based PAG systems) Cutting and grinding fluids (water based) Hydraulic fluids (HF-C, HF-A, water based systems including PAG) De-icing fluids Automotive coolants
Recommended dosage/usage	1 - 5% based on application and formulation

Key benefits

- Readily biodegradable -- Biobased -- APEO/NPEO free -

- Easy to handle liquid.
- Does not contain phosphorus, sulphur or halogens.
- Offers excellent solubility in water.
- It does not affect paints and coatings (no blistering or stripping of the coating is observed).
- The additive can be added to media, which exhibit pH range between 4 to 13.
- Non-foaming.

Safety and Handling	Please read Safety Data Sheet (SDS) before handling.
Product Specification	This information is available on request through our local representative.
Packaging	This information is available on request through our local representative.
Storage	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)

Quality Policy	<p>The objective of our quality policy is the continuous fulfillment of the internal and external requirements agreed upon with our partners with regards to everybody's performance.</p> <p>The Quality System of ADDAPT® Chemicals BV is based on the principles of the NEN - EN - ISO - Standard 9001:2015.</p>
