Application and		
treat level	Markets	Stearates industry Coating industry Ink industry Cleaning industry Engineering industry Metalworking industry
	Applications	Stearate production Paints Printing inks Floor polish and cleaner (high-temperature range) Aqueous hydraulic fluids Aqueous metalworking fluids
	Recommended dosage/usage	0,05 to 1,0 % wt. on total formulation <b>Suitable as Incidental food contact</b>

## Key benefits

- Inherently biodegradable -- APEO/NPEO free -- Free of MOSH/MOAH -- Free of amines -- Free of nitrates -- Free of nitrites -

- Excelent defoamer for stearate production processes.
- Fully soluble in water; no turbidity or haze of the liquid phase in clear systems.
- High-temperature range (40 75 °C).
- Maintains the defoaming properties over a prolonged period of time.
- Effective over a wide pH range (2 to 12).
- · Does not block filters and spray nozzles.
- · Metal surfaces are readily cleaned by rinsing with tap water.
- No paint or plating adhesion problems expected when the defoamer is applied.
