

Typical chemical and physical properties Water-soluble multi-metal anti-corrosion additive.

Proprietary blend of polyhydroxy amides and surface-active ingredients.

Appearance	Clear liquid
Solubility	
Water	Soluble
pH at 25°C	3,5 - 5,0
Viscosity at 25°C	≤30 mPa·s
Colour	≤75 APHA
Silicate test	Negative

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and treat level

Markets	Lubricants industry Coating industry Ink industry Cleaning industry
Applications	Lubricants Coatings Printing inks Cleaners
Recommended dosage/usage	0,5 to 2,0 % on total formulation Suitable as Food contact material

Key benefits

- Readily biodegradable -- Biobased -- Low VOC -- PFAS Free -- Free of MOSH/MOAH -- Free of silicone oils -- Free of BTA and TTA -

- Suitable for any water-based system that comes in contact with various grades of aluminium, copper/bronze and ferrous substrates.
- Controls "pitting" of the metal surface.
- Not restricted by the water hardness.
- No labelling.
- Non-foaming.
- Offers excellent compatibility with water.

Safety and Handling	Please read Safety Data Sheet (SDS) before handling.
Product Specification	This information is available on request through our local representative.
Packaging	This information is available on request through our local representative.
Storage	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)
Quality Policy	The objective of our quality policy is the continuous fulfillment of the internal and external requirements agreed upon with our partners with regards to everybody's performance. ☐ The Quality System of ADDAPT® Chemicals BV is based on the principles of the NEN - EN - ISO - Standard 9001:2015.
Liabilities	<i>All recommendations for the use of our products, whether given by us in writing, orally, or to be implied from the results of tests carried out by us, are based on the current state of our knowledge. Notwithstanding any such recommendations, buyer or user remains responsible for satisfying himself that the products as supplied by us are suitable for his intended process or purpose. Since we cannot control the application, use or processing of the products, we cannot accept responsibility thereof. Buyer has to ensure that the intended use of the products will not infringe any third party's intellectual property rights. We warrant that our products are free from defects in accordance with, and subject to, our general conditions of sale and supply.</i>
