

Typical chemical and physical properties Corrosion inhibitor package for high-performance coolants for heat exchange systems. It is free of borates, phosphates, amines and nitrites.

Concentrated aqueous solution of inhibiting salts.

Freezing point	-8°C	
Solubility		
Water	Miscible	
Density at 20°C	1,34 -	g/ml
Colour	<500	Pt-Co

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and treat level

Markets	Machinery
Applications	Heat exchange systems
Recommended dosage/usage	The requirement of ASTM D 3306* or ASTM D 4985* are fully met by adding 4% w/w of Coolant SiF-SP to MEG or MPG. In case higher reserve alkalinity is required or very diluted operative conditions are foreseen, it is advisable to add 5% of Coolant SiF-SP to MEG or MPG. (* ref. chemical-physical properties and ASTM D 1384; except aluminium corrosion. Blending instructions: • Pump the glycol in a mixer or tank • Add the SiF-SP under stirring • Stir for 30 minutes to homogenize.

Key benefits

- Readily biodegradable -- Free of phosphates -- Free of borates -- Free of nitrites -

Safety and Handling	Please read Safety Data Sheet (SDS) before handling.
Product Specification	This information is available on request through our local representative.
Packaging	This information is available on request through our local representative.
Storage	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)
Quality Policy	<p>The objective of our quality policy is the continuous fulfillment of the internal and external requirements agreed upon with our partners with regards to everybody's performance.</p> <p>The Quality System of ADDAPT® Chemicals BV is based on the principles of the NEN - EN - ISO - Standard 9001:2015.</p>
Liabilities	<p><i>All recommendations for the use of our products, whether given by us in writing, orally, or to be implied from the results of tests carried out by us, are based on the current state of our knowledge. Notwithstanding any such recommendations, buyer or user remains responsible for satisfying himself that the products as supplied by us are suitable for his intended process or purpose.
