

Typical chemical and physical properties

Foam control agent specially formulated for the processing of potatoes (starch, French fries), vegetables (spinach, peas) and mushrooms (champignon). Does not contain silicone- or mineral oils (MOSH/MOAH free). All ingredients comply with Kosher, Halal and the FDA code of federal regulations. Optimum processing temperature range: 0 °C - 95 °C.

Combination of edible oils and surface-active components.

Appearance	Yellowish liquid	
Active content	~100%	
Density at 25°C	0,94 - 0,98	g/ml
Viscosity after stirring at 25°C	<1000	mPa·s

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and treat level

Markets	Food and beverage industry
Applications	Vegetable (spinach, peas) procesing Potato (starch, French fries) procesing Mushrooms (champignon) procesing
Recommended dosage/usage	Apply the product in its natural state by aspersion or by dosing pump and adjust the initial dosage according to the requirements. May also be distributed with a water dilution system and or with a special metering system for automatic dosing in the fermentation, which means product will automatically added only when needed. Other 50 – 100 ppm based on total formulation

Suitable as Food Processing aid and in compliance with FDA Title 21 CFR.

Key benefits

- Inherently biodegradable -- Free of MOSH/MOAH -- Free of silicone oils -- Kosher -
- Very effective even at low concentrations and facilitates smoother pump operation, transport.
- Active in a temperature range of 0 °C to 80 °C.
- Leaves no residues in the pipes or valves of the equipment used.
- Shows excellent de-aeration properties after blanching of spinach. This means smaller packaging can be used with savings on logistic costs.

Safety and Handling	Please read Safety Data Sheet (SDS) before handling.
Product Specification	This information is available on request through our local representative.
Packaging	This information is available on request through our local representative.
Storage	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)
