

Product description

Cost-effective and sustainable foam control agent emulsion.

Typical chemical and physical properties

Chemical nature	Emulsion of surface-active components and vegetable oils in water.	
Appearance	White Liquid	
Active content	~50%	
Solubility	Emulsifiable	
Water		
Odour	Characteristic	
Density at 25°C	0,94 - 0,99	g/ml
Viscosity at 25°C	300 - 750	mPa·s

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and treat level

Markets	Coating industry Stearates industry Cleaner industry Water treatment industry
Applications	Paints Adhesives Floor polish Wastewater treatment
Recommended dosage/usage	0,30 to 0,5 % wt. based on total formulation 2/3 of the amount should be added during the grinding stage, 1/3 during the 'let down' stage

Suitable as Incidental food contact

Key benefits

- Readily biodegradable -- VOC free -- APEO/NPEO free -- Free of MOSH/MOAH -- Free of silicone oils -- Free of amines -- Free of nitrates -- Free of nitrites -

- Enhances gloss in certain emulsion-based paint systems due to improved levelling.
- Suitable for emulsion paints, high gloss emulsions paints, and also for emulsion-based plasters.
- May also be used in the production of emulsions binders.
- Easily emulsifiable.
- Maintains the defoaming and deaerating properties over a prolonged period of time.
- No intercoat adhesion problems are expected when the defoamer is applied.
- Cost-effective.
- Easy to incorporate.

Safety and Handling	Please read Safety Data Sheet (SDS) before handling.
Product Specification	This information is available on request through our local representative.
Packaging	This information is available on request through our local representative.
Storage	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)

Quality Policy	The objective of our quality policy is the continuous fulfillment of the internal and external requirements agreed upon with our partners with regards to everybody's performance. The Quality System of ADDAPT® Chemicals BV is based on the principles of the NEN - EN - ISO - Standard 9001:2015.
