

Typical chemical and physical properties Dispersion of polyethylene and paraffin waxes in water. It is used in the paint industry, printing ink industry, shoe and leather care and paper industry. Provides very good water-repellent properties and scratch resistance. Exhibits matt gloss and improves surface smoothness. Highly suitable for use in aqueous coating systems.

Emulsion of polyethylene and paraffin waxes in water.

Appearance	Translucent liquid
Active content	~30%
Solid content	29,5 - 30,5 wt%
pH at 25°C	9,0 - 10,0
Viscosity at 25°C	≤150 mPa·s

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and

treat level

Markets

Coating industry
 Ink industry
 Polish industry
 Paper industry
 Plaster industry
 Leather industry

Applications

Water-based coatings
 Polishes
 Shoe- and leather care
 Printing inks
 Paper
 Plasters
 Renders

Recommended dosage/usage

1,5% - 2,5%

Suitable as Food contact material

- Provides very good water-repellent properties.
- Gives a matt gloss.
- Improves surface smoothness.

Safety and Handling	Please read Safety Data Sheet (SDS) before handling.
Product Specification	This information is available on request through our local representative.
Packaging	This information is available on request through our local representative.
Storage	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)
Quality Policy	The objective of our quality policy is the continuous fulfillment of the internal and external requirements agreed upon with our partners with regards to everybody's performance. ☐ The Quality System of ADDAPT® Chemicals BV is based on the principles of the NEN - EN - ISO - Standard 9001:2015.
Liabilities	<i>All recommendations for the use of our products, whether given by us in writing, orally, or to be implied from the results of tests carried out by us, are based on the current state of our knowledge.
