Liquid Tannin Blocking Aid MIS5350

Article number: Verification date: Version:

14/02/2025

1

Typical chemical and VOC-free, effective liquid blocking aid for Tannin and other stains in most Water-Based and Solvent-Based coatings. physical properties

## Proprietary blend of surface active and chelating compounds.

Appearance	White liquid	
Density at 25°C	0,9 - 1,05	g/ml
Viscosity at 25°C	750 - 950	mPa⋅s

This information is intended as a guideline only. For specifications please consult the Certificate of Analysis.

Application and		
treat level	Markets	Wood coatings industry
	Applications	Water-Based coatings Solvent-Based coatings
	Recommended dosage/usage	ca. 3 - 4 % on total formulation.
Kana kamatita		

Key benefits

## - Readily biodegradable -- VOC free -- Halogen free -

· Very effective liquid blocking aid for tannin and other stains, providing high performance and good compatibility in most Water-Based and Solvent-Based (wood) coatings.

• Excellent tannin stain blocking properties can be achieved without the need for metal containing agents like Zinc or Zirconium-based products.

- · It is Barium and Antimony free.
- It is free of Ammonia.
- · Easy to post-add to a coating.
- · Offers excellent solubility in most Water-Based systems and Solvent-Based coatings.
- · Eco-label compliant.
