

### Technical Data Sheet

**Typical chemical and physical properties** Biodegradable wetting agent for aqueous lacquers and paints. Improves the open time and enhances the flow and leveling properties.

**A blend of PolyAlkylene Glycols, dispersants and Polyhydroxy - Amide.**

Solubility

Water

Miscible

### Application and treat level

Markets

Coating industry  
 Ink industry  
 Cleaning industry

Applications

Coatings and lacquers  
 Paper coatings/impregnation  
 Printing inks (OPV)  
 Cleaner agents

Recommended dosage/usage

0,5 -2,0 % wt. based on total formulation

### Key benefits

#### - Readily biodegradable -

- The multifunctional nature allows to provide the necessary wetting properties for water based systems such as paints, adhesives, printing inks.
- Low-foaming wetting agent.
- Improves penetration.
- Improves wetting on wood substrates.
- Increases open time of emulsion-based lacquers.
- Reduces surface tension suitable for application on wood and glass substrates.
- No labelling.

<b>Safety and Handling</b>	Please read Safety Data Sheet (SDS) before handling.
<b>Product Specification</b>	This information is available on request through our local representative.
<b>Packaging</b>	This information is available on request through our local representative.
<b>Storage</b>	The product should be stored at a temperature of no less than 10 °C and no more than 25 °C and away from light. For more safety details read the Safety Data Sheet (SDS)

**Quality Policy** The objective of our quality policy is the continuous fulfillment of the internal and external requirements agreed upon with our partners with regards to everybody's performance.

The Quality System of ADDAPT® Chemicals BV is based on the principles of the NEN - EN - ISO - Standard 9001:2015.

**Liabilities** *All recommendations for the use of our products, whether given by us in writing, orally, or to be implied from the results of tests carried out by us, are based on the current state of our knowledge. Notwithstanding any such recommendations, buyer or user remains responsible for satisfying himself that the products as supplied by us are suitable for his intended process or purpose. Since we cannot control the application, use or processing of the products, we cannot accept responsibility thereof. Buyer has to ensure that the intended use of the products will not infringe any third party's intellectual property rights. We warrant that our products are free from defects in accordance with, and subject to, our general conditions of sale and supply.*
